

RESTORING HEALTH AND HOPE
AROUND THE WORLD.

March 20, 2006

To Whom It May Concern:

This letter is being written to commend Access Technology Solutions for the innovative services they have created to help us run a Not-For-Sale (NFR) program in Japan.

Access helped us successfully implement our Japanese NFR program in October of 2003 with a fully localized website, along with Japanese payment systems for ViaViente product purchase, commission payment, native Japanese speaking customer service, electronic customs clearance, translation, and promotional event management in Japan. Access has brought us a great deal of expertise that has allowed us to make Japan our largest international market. I appreciate the fact that Access has been with ViaViente every step of the way on our journey in Japan.

We find Access to be not just a technically competent and efficient firm, but one who genuinely care about ViaViente's success. We are thrilled to have Access at our disposal.

As the CEO and Founder of ViaViente, I am extremely happy to recommend Access to anyone in the direct selling industry who has a vision to expand their international market to Japan.

Sincerely,

A handwritten signature in black ink, appearing to read 'Craig Keeland', written in a cursive style.

Craig Keeland
Founder, President and CEO
